COMPANY PROFILE

SCUBE brand has long been committed to provide professional solutions, with complete integration of design, project management, and on-site execution. All works are customized solutions for turnkey interior design basis client requirements, as we realize our responsibility from that first out-of-the-box idea to tightening the last bolt throughout the entire spectrum of our services.

Our execution teams are meticulously trained in the industry and are highly experienced in efficient and quality-oriented construction practices, resulting in an excellent finish, and conscientious attention to detail. Our efficient project management approach ensures that cost and scheduling are taken care of early in the design process. Our expertise is both deep and wide and this rich experience allows us to confidently serve a great diversity of clients and projects. Nearly two decades (20 years) of a strong, customer-centric approach and continuous zeal for exceptional quality have enabled us to sustain leadership.

VISION & MISSION

To continually emerge as one of the most preferred service providers Pan India for Comprehensive Building Solutions and to continuously set new standards through Quality and Speed of work.

To facilitate Superior customer Service, Quality and Commitment with Profitable Growth Vision.

CORE VALUE'S

- To develop values, ethics, vision and expectations that balance the needs of all the stakeholders.
- Social Responsibility/Pollution free Planet.
- Integrity in character with business ethics.
- Collective ownership of the assigned project.
- Constantly upgrading our System, Process, Teams and Activities.

QUALITY ASSURANCE POLICY

Our single-minded belief lies in a very simple proposition – “the difference is in the detail” and this belief translates to action in a variety of ways. We have achieved the specific expertise of flawless completion of projects against extremely stringent timelines. At S Cube, we have all the essential resources to complete your project, we have assembled a team of accomplished professionals from inception to completion of project so as to realize the perfect environment as per your requirements and the architect's designs. We provide experienced trained professional team from start to finish for your project. Our experts take care of everything you need for your project and guide you to complete your journey transforming your dream space is a reality.

BEST PRACTICES

We follow our mantra on our 7 guiding principles for best practices – focus on value, start where you are, progress iteratively with feedback, collaborate and promote visibility, think and work holistically, keep it simple and practical, optimize and automate. This helps our team to focus and deliver projects in the most efficient manner.

PROCESS FLOW

Brief

All your designs, ideas, Concepts, Requirements & Purpose are shared with S Cube team.

Ideation

Our S Cube team puts forward all the details of the research done to take forward your idea into reality.

Assembling

The list of all the Raw material as per your choices of colour, shades & size are gathered to deliver on site.

Completion

After successfully completing the execution 'A team of housekeeping is sent to remove the masking tapes & protective tapes on our fit outs.

Research

Our team does all the necessary research to complete all your requirement's.

Design

After a technical & purposeful discussion your idea is drafted into CAD drawings and plan.

Execution

A dedicated SCUBE team or trained approved fabrications team is sent to execute the project with all the necessary tooling's.
